

2023 Summer Programming

Accessing Pre-Tests

Pre-tests for 2023 summer programming do not need to be administered through Secure Tester. A student who has been provided with the online passcode (below in bold) can take the test by logging into SchoolNet at **tn-student.schoolnet.com** and entering the online passcode in the “**Take a Test**” widget.

Please note that Summer SPEAR data is being loaded to SchoolNet for all grades.

If students need to test but are not yet loaded in their Summer Program Sections, they can still test in their SY22-23 section.

Building Testing Coordinators (BTCs) and Building Level Users (BLUs) can assist students with locating their usernames and temporary passwords. Instructions can be found here under **General Resources**:
<https://tn.mypearsonsupport.com/schoolnet/>

Once the students have tested, the BTC or BLU will have access to provide student results, as needed.

Rosters can be verified by running the *Current Section Enrollment for School* report found on the **Key Reports** widget when logging in to SchoolNet (Or **Reporting>Reporting Dashboard** > Click **Published Reports** tab > click the “+” next to Enrollment).

To locate student usernames and passwords: Go to **Assessment** > **Print** from the blue menu on the left of the screen> click on the view usernames (person) icon next to the test name. This will bring up a page where you can search for classes. Clicking “Include sections not assigned to the test” box before clicking search will result in results in more sections than just the grade and subject of the test.

Summer pre-test online passcodes to be used if students are not yet loaded to SchoolNet:
